

## Evolution: English Paper Piecing – Half-day Workshop

**Description:** It's a Polygon Affair! Learn English Paper Piecing technique to make a fancy pieced hexagon. Explore your creative side as you color or fussy cut the polygon shapes. Come relax, the class includes just about everything you need for a bright and colorful hexagon. We'll stitch the 1st together, then as an option; you can purchase the full kit (13 blocks, finishing connectors and fabric) with booklet to wall-hanging.

**Class kit fee:** Starter kit (needles, fabric glue, thread and felt), fabric pack and paper pieces with handout. (\$25)

**General supplies:** Small scissors, needle threader, seam ripper and thimble.

**Optional:** Evolution booklet (\$24).

**Gyleen's thoughts:** Oh, what fun it is to just sit and stitch. Each fancy pieced hexagon block can be used alone or you can add more to make a wall-hanging. If you're selecting fabric, I think any color palette would work. The key is the scale and variety of the print. Bits and pieces of fabric from your stash will do the trick when working in miniature with paper pieces. When making the full size quilt (by machine and Polygon Tools), I used red, yellow and blue primary colors with background and connectors to support the stripe fabric.
