Includes patterns and instructions to make 8 quilts using the Pineapple Tool©.

Trash to Treasure Pineapple Quilts features fabulous full color photos of 8 pineapple quilts with a contemporary twist. The blocks are easy to make using the Pineapple Tool© that was designed especially to precisely trim the blocks with ease as they are sewn.

When throwing out scraps is not an option, what is a quilter to do with them? Take the challenge and make something from literally nothing. Start by cutting everything in the scrap box down to 1-1/2" strips. No need to sort them unless you must. Then, armed with a rotary cutter and Pineapple Tool©, commence sewing...no planning and no measuring. It's that easy. The more pineapple blocks you make the more you realize that any print and color combination works. Totally random selection soon becomes addictive.

Saving scraps is in a quilter's soul, giving a never-ending supply of pineapple strips. It's easy to be neat and organized and turn trash into a beloved quilted treasure using the simple instructions and the Pineapple Tool©.

The addiction continues and the synergy grows as quilters support each other on Facebook's Trash to Treasure Pineapple Challenge Group page.
